RETAIL RESCUE
PRODUCT TRANSFER LOG

Food received from Foodshare's Retail Rescue Program may only be shared with other Foodshare Partner Programs in good standing. To find out if a program is qualified to receive product, please contact us first.

This log should be kept on site at your program and must be made available to Foodshare staff upon request. Food should not be transferred on a regular, on-going basis. If it is happening more than a couple of times per month, please contact Gaye Sgamboti at Foodshare (860-856-4342) so we can make some adjustments to the assignments.
